

# STANDARD DIE INTERNATIONAL

## PRECISION METAL STAMPINGS

### CAPABILITIES:

- Deep drawing
- Tight tolerances
- Material thickness range from 0.001" to 0.25"
- Environmentally friendly cleaning process
- High speed progressive stampings
- Sub-assemblies
- Round, square & rectangular deep drawing shapes
- Presses from 5 to 300 tons
- High Volume Production
- R & D Projects
- Progressive Stampings
- Transfer Stampings
- Line Dies
- Lean Manufacturing

### STAMPED MATERIALS:

- Niobium
- Titanium
- Zirconium
- Molybdenum
- Tantalum
- Graphoil
- Copper
- Cobalt
- Nickel
- Mica
- Aluminum
- Stainless Steel
- Brass
- Cold-Rolled Steel

### INDUSTRIES WE SERVE:

- Oil & Gas
- Military
- Industrial Diamond
- Aerospace
- PDC Industry
- Appliances
- Medical Devices
- Electronics
- Energy
- Battery
- Robotics
- Automotive
- Construction

### SERVICES:

- Design Engineers
- Full-service Tool & Die Shop
- Metallurgist on Staff
- Vendor-managed Inventory Systems
- Compound Dies
- Quality Management System
- Dedicated Customer Service Managers
- Worldwide Shipping
